Understanding Piles: A Common Yet Painful Condition

Piles, or hemorrhoids, are swollen veins in the lower rectum and anus that can cause discomfort, pain, itching, and bleeding. While piles are a common condition, many people hesitate to seek treatment due to embarrassment or fear. However, early diagnosis and proper treatment can prevent complications and improve your quality of life.

At **Yazh Healthcare**, we understand the sensitivity of this condition and ensure a comfortable, judgment-free environment for all our patients.
